

FREIGHT TIE-UP IS ALL COMPLETE

Strikers Have the Best of Chicago Situation Thus Far.

SHOW COURTESY

Allow Perishable Fruit To Be Moved, so as To Create Sympathy.

READY FOR THE SIEGE

(Special By Scripps-McLae)
Chicago, Ill., July 8.—The tie-up of the freight traffic was the result of the strike of the freight handlers is complete. The only road that is not affected that is moving freight with any degree of success being the Illinois Central.

New Men Hired
Before noon the Chicago and Northwestern and the Chicago and Eastern Illinois roads succeeded in securing a full complement of men to take the strikers' places.

Not Discouraged
The strikers say that they are not discouraged and claim that in a few days every union man in the city will quit work or refuse to haul freight handled by non-union men. This would make the tie-up more complete than ever and would tie up more completely than ever before the business interests of the city.

Stop Business
It would not only tie up trade but some business houses would be compelled to close their doors and the loss of money to Chicago will never have been equalled.

Move Perishable Goods
Strike leaders not wishing to lose the sympathy of the public this morning allowed the removal of all perishable freight from the freight houses thus recognizing that there will be a shortage of food stuffs and public sentiment would turn against them.

May Close Shops
Some of the larger concerns are talking of closing up shops until the trouble is over. Some may do it tonight.

Fed Like Princes
The Illinois Central has converted one of its huge freight houses into a commissary department and its five hundred handlers, mostly husky young farmers, are being waited upon by fully uniformed Pullman car waiters.

Sleep in Pullmans
At night they sleep in Pullman cars brought up on the siding near the freight houses. Other companies are liable to follow the lead of this road and an army of workmen from outside the city will be here inside of two days.

STRIKE AFFECTS LOCAL MERCHANTS

PRODUCE TIED UP IN CHICAGO

Janesville Sends Four Men to Assist Northwestern Company in Handling Freight.

The effect of the strike of the freight handlers in Chicago has already made itself felt in this city. On Monday the commission agents were forced to ship most of their produce by express and all shipments today were made by express. It is feared that the tie-up among the freight handlers will be extended until it forces a shut-down among the commission merchants.

All Through Chicago
It is impossible for the shipping merchants to do any business save through Chicago. Plans have been made for handling freight at Western Union Junction but it is feared that with produce from the South and West the districts whence the commission men do their business, conditions will not be alleviated by the change.

May Force Shut Down
It may even mean that matters will reach the point where no more produce can be obtained this side of Chicago, especially if the dockmen and teamsters join forces in the strike with the freight handlers. If that is the case it will mean a complete shut down of business for the produce merchants, as was the case for a couple of weeks some six years ago.

Janesville Sends Aid
Reinforcements have been called for at Chicago from all stations along the line of the Northwestern from Winona to Chicago. In many cases where a station has both agent and operator the agent is being sent to Chicago to handle freight. The Northwestern freight yards of Janesville have responded to the call by sending on the Monday noon train, Alvie Hemmens and Michael Murphy. This morning Eli Howard and August Schram also left for Chicago.

Butter Market
Eglin, Ill., July 8.—Butter market firm at 21c. Bids of 21½c failed to bring out any offerings of butter and the session closed without sales. The sales of the week were \$19,000 lbs.

Get Chinese Contracts.

Pekin, July 8.—The Chinese Government has awarded to a French firm important contracts for the supply of machinery for the Foo-Chow and another arsenal. The machinery will be used for the manufacture of small arms and of war material generally and must be supplied before the close of the present year.

SON OF SENATOR COOK SHOWS GREAT BRAVERY

Robbers Attack Him on the Road, but He Defends Money with His Life.

Huntington, W. Va., July 8.—After being shot by would-be robbers Thomas Cook, son of Senator William Cook of Wyoming county, put spurs to his steed and throwing his arms about the neck of the horse dashed along a mountain highway for half a mile before he fell, so weak from the loss of blood that he could no longer remain in the saddle. On his person was several thousand dollars to be used in paying 1,000 men cutting timber in the mountain wilds on upper Guan river.

Cook was riding along the lonesome road when two men opened fire on him. A bullet pierced his breast, coming out just behind the shoulder blade. He fired back, but realizing his injury he dropped the revolver and fled. He is not likely to recover.

Student Fights Eight Duels.

Vienna, July 8.—A Hungarian student named Andor Papp has created a dueling record by fighting eight consecutive duels. He disabled all his opponents, escaping injury until the eighth affair, when he was slightly wounded.

Regent B. J. Stevens of this city, previously received a telegram from Mrs. Adams stating that her husband was quite ill with no hope of recovery.

KING CORN PLAYS HAVOC ON MARKET

Prices Raise Four Cents Over Opening Prices in Two Hours.

WAS UP TO 90 CENTS

Gates-Harris Combination Control the Whole Supply, and Bull Prices.

WORKS RUIN TO BEARS

(Special By Scripps-McLae)
Chicago, Ill., July 8.—Corn is selling at 88 cents on the board today. It opened at 84, last night's closing price, and rapidly went up to 85 1-2.

At Fever Heat
At 11 o'clock the price went up to 88 cents. The excitement is intense and the fight between the Yates-Harris people and the elevator people who are the big shorts is desperate.

May Settle Privately
It is expected that the elevator people will make a private settlement before the week is out or be compelled to pay on the basis of a dollar or more as Yates holds all contract corn and dried kiln corn which the elevators have been trying to pass will be rejected as being low grade.

Up To 90 Cents
At noon corn went to the ninety mark but the number of sales towards the close put the price down again to 87 where it closed.

NEEDLES IN BRAINS BRINGS FORTH MONEY

Pennsylvania Couple Gives Up Large Sum to Have the Spell Removed.

Carlisle, Pa., July 8.—A witchcraft case, the first since colonial times, was taken cognizance of by a Carlisle magistrate when Mrs. Smith Stambaugh and her husband of Mount Holly Springs appeared before Magistrate Hughes against Mrs. William McBride and Edward Zug.

The Stambaughs testified that the accused persuaded them that their profiles were seen in a near-by mountain with needles stuck through their brains. These, they said, were getting rusty, and the lives of their living counterparts could only be saved by money offering before the needles broke.

Many trips were made to Mrs. McBride and large sums of money paid, with provision for its return by the disclosure of a hidden treasure.

The efforts of the impoverished Stambaughs to raise money to pay the witch doctors gave their record publicity. Mrs. McBride and Zug were held for court.

BELOIT'S MAYOR TOLD HIS DUTY

Common Council of Line City Take Control of Affairs from Mayor Smith.

Beloit, July 8.—(Special).—Mayor Simon Smith received a decided slap from the common council last night at their regular monthly session. Some time ago he reported to the delegation of ministers who went to him to protest against the wine rooms, slot machines and gambling devices in the saloons of the city, that no such things were in operation. He also refused to issue an order to City Marshal George Appleby to stop such things should they exist.

But There Are

At last night's session of the council a resolution was made and passed unanimously taking the control of these affairs out of the mayor's hands and ordering the marshal to put a stop to such things. In the face of the Mayor's denial of their existence this open acknowledgment of the truth of the ministers' assertions and the taking of the control from the Mayor's hands is considered by the citizens, that an era of reform is to be enacted in the city.

Ames' Mares' Foes for Mercy.
Minneapolis, Minn., July 8.—The bribery case of Police Superintendent Ames was committed to the jury after the counsel for the defense had included in their arguments a plea for merciful consideration and the wife and the little boy of the defendant had been introduced in the scene with an evident attempt at dramatic effect.

Becomes College President.

Vanderbilt's Gift to Yale.
New Haven, Conn., July 8.—Fred W. Vanderbilt of New York and Baltimore has given a large sum for a new dormitory system for the Sheffield Scientific School, Yale. The exact amount is not stated, but is believed to be about \$500,000. Mr. Vanderbilt was graduated from the Sheffield Scientific School in the class of '76.

Michael Clark of Cincinnati.
A former Janesville boy, is visiting in this city.

LA FOLLETTE MEN BOLT CONVENTION

First District Led by Gettle, Have a Convention of Their Own.

TROUBLE AVERTED

The Second and Third Pass Spooner-Whitehead Resolutions in Peace.

WAS A LIVELY TIME

The Rock County Republican convention to elect delegates to the state convention was held in the circuit court room this afternoon. The convention was called to order by T. S. Nolan, chairman of the county committee. The conventions as far as the second and third assembly districts were concerned were devoid of excitement, but the first assembly district convention was a fight from the start to the finish.

The LaFollette delegates from the City of Evansville, City of Edgerton, town of Porter, Rock, Lima Center and Magnolia, withdrew from the convention and started a convention of their own. T. S. Nolan appointed D. F. Heddles, chairman of the first assembly convention and at this L. E. Gettle, of Edgerton, jumped up and began to call the disaffected delegates to one side. They immediately withdrew and elected J. E. Colony of Evansville, chairman and C. M. McCoy, secretary. They then elected T. B. Earle, L. E. Gettle, F. E. Colony, R. E. Acheson, H. O. Frosten, J. O. Fisher, J. E. Egan, Charles Miller, Archie Swan, H. M. McInnis and J. L. Fisher, delegates to the state convention. The delegates to the first assembly district elected the following delegates to the state convention: W. T. Boyd, M. Paulson, W. J. Crawford, F. L. Hull, N. M. Gleason, F. W. Coon, G. L. Chamberlain, T. B. Rouse, W. J. Miller, W. M. Tones and S. S. Lee.

They also adopted the Stalwart resolutions and the report of the county committee in regard to the towns of Rock and Porter. While Chairman D. F. Heddles was reading the report of the county committee in regard to Porter and Rock, L. E. Gettle started in to read resolutions in favor of LaFollette. Gettle has a voice like a fog horn and Heddles could not be heard. At this juncture T. S. Nolan rushed across the room, snatched the resolutions from Gettle's hand and tore them in two. For a moment pandemonium reigned. It seemed as if a hot fight was about to take place. Supporters from both factions rushed forward to support their respective champions. Before the parties came to blows some of the cooler heads of the convention succeeded in quieting the fighters and quiet was restored.

The disaffected LaFollette delegates withdrew to one side and took no further interest in the proceedings further than to say that they would fix the Stalwarts at Madison on the 16th.

Second District

The delegates to the state convention from the second district are: T. W. Golden, T. S. Nolan, H. L. McNamee, O. F. Nowlan, E. H. Smith, J. A. Fathers, A. E. Matheson, Robt. More.

Third District

Those from the third are C. Ingersoll, J. B. Foster, Halver Cleophas, Simon Smith, L. H. Parker, E. F. Hanson, W. H. Appleby, Henry W. Conley, Ira Cleophas, K. N. Grunwald, Jerome Shimmall, D. H. Pollock.

The following are the resolutions adopted by the three assembly districts each in its separate caucus:

Republicans of the First Assembly District of Rock County, through their representatives met in convention to select delegates to the State Convention to be held at Madison, July 16, 1902, Resolve:

1. We deplore the untimely death of President McKinley.

2. President Roosevelt has held the confidence and attracted the admiration of the American people from the moment that he took his official oath. We support him as our national party leader and as a glorious type of American manhood. We name him as our Presidential candidate in 1904.

3. We are proud of our United States Senators, Hon. John C. Spooner and Hon. Joseph V. Quarles, and now what Sen. Spooner is nearing the end of his second term, we call upon him as a patriotic citizen and a self-sacrificing man to reconsider his decision to retire from public life. We press our claim upon him to allow Wisconsin to appoint him to further service in the greatest legislative body in the world, because we know that he is one of the chief counselors of the National Republican Party and one of the most faithful statesmen of our time. We call upon the State Convention to demand his unanimous election, as his own successor, by the next Legislature, because we believe him to be the choice of the Republicans of Wisconsin.

4. We endorse the Hon. John M. Whitehead of Janesville, as our candidate for Governor. We commend his wise and public spirited services in the State Senate, and express our confidence in his integrity, ability, wisdom and character. We hereby instruct our delegates to use all honorable means to secure his nomination.

Morning Meeting

This morning at 10:30 the Republican County Committee was called to order by T. S. Nolan. The two subjects up for discussion was the disposal of the votes in the towns of Porter and Rock, and finishing up the business of the committee as this was

their last official meeting.

Who Get Seats
There was no contest on in the Second or Third districts and they were quickly passed over and the returns of the chairmen approved. In the first district two contests were on—the town of Rock and the town of Porter. In case of the town of Rock the complaint was made that Democrats voted at the Republican caucuses for LaFollette and that a fraud had been perpetrated.

Town of Rock
M. G. Jeffris appeared for the Stalwarts in Rock and stated that while there were 134 votes cast at the caucus the Stalwarts had received 55 and LaFollette 78. Of the 55 Stalwarts he had the affidavits of 55 of them that they had voted for Whitehead delegates. He also presented the affidavit of Wm. Brinkman, a well-known Democrat, that he had counted 21 well-known Democrats who had voted at the caucus. Other Democrats also had made similar affidavits.

In view of this statement of affairs Mr. Jeffris asked the committee to seat the Stalwart delegates. W. S. Thom of Chilton and F. W. Gilman of Evansville argued from the LaFollette side that their delegates should have the seat. A controversy between Jeffris and Gilman warm and exciting. On the vote of the committee the LaFollette delegates were unseated and the Stalwarts given their seats.

Town of Porter
W. G. Wheeler represented the town of Porter republicans and fully set forth the true state of the controversy. He stated the caucus laws and stated the one referring to a tie vote applied simply to Milwaukee county. Mr. Gilman fought for the delegation of the LaFollette faction, but was unsuccessful and the committee voted to give a half vote to all six of the delegates.

First District
This placed the First District in the solid Whitehead column and assured the passing of the election of Whitehead delegation from Rock county. The defeated LaFollette men said that they were going to carry the fight into the state convention and hoped to win representation.

BITTER TRUTHS OF LA FOLLETTE

Democratic Mayor Rose of Milwaukee, States His Opinion of Governor.

SERIOUS CHARGES

Outspoken Story of the Executive Machine and Its Doings.

STRONG LANGUAGE

Politicians say that the leaders of one political party will say mean and sometimes unjust things about their opponents. It is in the game of politics. Often times the fight waxed hot and furious and then the true character of the opposing candidates becomes public property.

Milwaukee has for its Mayor a local hero. A man who has for three successive terms carried the erstwhile republican city, by large democratic majorities. Mayor David S. Rose is a politician. While he denies it emphatically, doubtless the gubernatorial bee is buzzing about his bonnet. The present fight in the republican ranks has offered the democrats a chance for placing an entrance wedge and as a first blow for the cause Mayor Rose comes out in an interview in a Milwaukee paper.

In this interview the Mayor states some truths about the present head of the republican state government in a truly startling and plain spoken manner. He denounces the administration and says that for Populistic Kansas it might have done but even Kansas has repudiated populism. It is a direct bid for the democratic nomination for Governor and should he secure it the fight will be a merry one for Rose is a campaigner. He has personal magnetism and a good speaking ability.

Should the two opposing candidates be LaFollette and Rose then will be the time for all good republicans who wish to save the state for the republican ranks, to look out and work as they never have worked before. Nils Haugen is authority for the statement that Governor LaFollette is not strong enough for more than one speech and should he be pitted against one of the best speakers of the past silver craze, woe be unto the party. It would be a battle royal at which the prohibitionists could stand off and laugh.

Mayor Rose's interview is so pertinent at the present time that it is reprinted below. It is well worth reading and studying for it sounds reasonable.

"Mr. LaFollette's claims have gone unchallenged. The criticisms made by the republican newspapers have not been accepted as seriously as they should have been, because they came from a factional opposition. The Democratic press, on the other hand, has been content to stand by and permit Governor LaFollette's own party to condemn him. As a matter of fact his policies are all visionary and utterly impracticable when put to the test.

"Governor LaFollette has pretended to be a reformer, the opponent of old policies and old leaders, when in truth the Kress correspondence proves conclusively that while he was protesting loudest, he was conniving secretly with the old leaders whom he pretended to fight for the purpose of securing personal advantage.

"There is no question but that the Republican convention of two years ago would have refused to nominate him had the Stalwarts willed it. Why the Stalwarts lay down at that time was inexplicable until the Kress-Payne correspondence gave the explanation.

"The reason for Governor LaFollette's advocacy of a primary election law ought to be now plainly apparent to every intelligent mind. With the grand army of state officeholders whose actions he dominates with the efficiency of a tyrant, constitutes the most powerful machine that ever existed in this state. It would be entirely impossible for him to perpetuate himself in office as long as he saw it. If any other person desired the nomination it would be necessary for him to build up a stronger machine than Mr. LaFollette possessed. Governor LaFollette built his machine at the expense of the state treasury, while any opponent of his would require a fortune to build a stronger one.

"A primary election law would be a rich snap for Governor LaFollette but would constitute an effective barrier to the nomination of anyone who could not have the support of his machine.

"His theories for the equalization of taxation are farcical. If the laws he has given us may be taken as an index. He has signed and approved a law creating double taxation, which, by the way, is the only tax law enacted under his administration, and he vetoed the Frost bill, which constituted a long stride in the right direction.

"In addition to this Governor LaFollette has kept the state in a constant turmoil for the last four or five years. The business interests of the state have become fearful of his insane delusions, and I believe that his policies and theories will be repudiated at the next election. He would make a typical governor for Kansas, where Populistic fanaticism is rampant.

"The Democrats have not thought

WILL ENLARGE ALE FACTORY IMPROVEMENTS BEING MADE

Storms Have Flooded Spring Brook District—Crate Men Are Busy.

Weather has been the piece de resistance on the Spring Brook men of late and for some days past it has been dished up in such generous helpings that the people have been prone to cry, "That's a plenty thank you." But the weather man has been relentless, going from the extreme of high temperature to such copious floods of water that do to would gladly be welcomed to this region to make his abode if he could make good his assertion that he is the one actual weather prophet and that all others are shams and humbugs. In fact since the deluge of Sunday night one farmer has been making strenuous efforts to discover his field of young corn, which was formerly occupying the space now taken up by a small sized duck pond.

New Corporation Organized
The ale brewery has been wholly unaffected by the caprice of the past grand master of the weather and plans for a change of business organization and a wider field of action have been going on merrily. F. P. Williams with the aid of Attorneys Fisher and Oestreich, has brought about the organization of an incorporated company with a capital stock of \$40,000, the two stockholders who are in with Mr. Williams being E. B. Perkins and C. P. Hart.

Additions to the Ale Factory
Extensive additions are soon to be made to the Jansville works. The first will be a new fermenting room and after that will follow a malt house. The bottling will be done altogether in Milwaukee and the first steps toward the erection of a bottling house in that city were made on Monday. An agency will also be established in Chicago under the direction of E. B. Perkins. C. P. Hart will be in charge of the Milwaukee branch of the concern. Two carloads of casks were received from Milwaukee today for use in the local brewery. With the change in the business organization of the concern a new brewer will take charge of the work here, James Argall. He is expected to arrive Thursday from Toronto, Canada.

Weather Better For Canning Crops
Peter Hohenadel, Jr., is feeling much better of late, thank you, since the last of the week, and while the likelihood of a continued stretch of warm weather is just the thing that he has been looking for. Work on his farms is going on excellently and it is hoped that the latest plantings will be wholly successful.

Crate Makers at Work
Work in the factory has been begun, not in the canning department, but by the crate makers, who are preparing for the shipping season.

Signal Tower Framework Up
The framework of the signal tower at the C. M. & St. P. R. R. crossing of McKee boulevard is rapidly being erected. The window frames will be put in place today or tomorrow and the tower will be completed at an early date.

24th Troubles Interurban
The interurban is progressing but slowly through Spring Brook and along the greatest part of its length within that district it more closely resembles a continuous mud hole than the grading for an electric railroad. The rain has wrought great havoc in the soft earth embankments that have been thrown up.

Also City Railway
The Jansville Street Railway people have their complaint to register against the rain for the damage it has done to their tracks at the curve at the junction of the Beloit road and Eastern avenue. The soft earth has allowed the rails which were only insecurely fastened to the rotting ties to spread apart so far that it was necessary to re-construct that part of the line quite thoroughly.

**CITY DADS HOLD
REGULAR SESSION**

Hot Weather Does Not Prevent the Aldermen from Looking After Municipal Affairs.

Mayor Richardson was absent from the regular meeting of the council last evening and acting President Gilkey presided in his place. He too was called away later in the evening and Alderman Hutchinson was called to the chair. All of the aldermen were present at the meeting with the exception of Mills and Hemming. On account of the warm weather and the desire to finish up the work the reading of the minutes was dispensed with.

Report For June
The city treasurer's report for the month of June and the municipal court report for the same month were referred to their proper committees and later accepted and placed on file. The bond of Sheridan and Byrne and the petition of H. J. Lemmerhirt for the transfer of his saloon license, was referred to the license committee. The petition was granted and the bond placed on file.

Will Borrow Money
The mayor was instructed to borrow \$2,100 and place it to the credit

of the general fund for the city hall contract and an order for \$4,000 in favor of James Rowson & Son was ordered drawn.

The building committee reported that they had entered into a contract with the Art Metal Construction Co. to fit up the vaults in the city clerk's and city treasurer's offices with shelves and cases for the sum of \$350. It was thought at first that this work would cost about \$750. They found, however, that moving the large safe in the clerk's office to the new offices they could get along with much less. They contracted with E. T. F. to move the safe for \$100 and it had been done. The report was adopted. The committee also reported that Rowson & Son said that the offices to be occupied by the clerk and treasurer could be finished by August 1. The city attorney was instructed to draw a contract with Rowson & Son that the occupancy of these offices does not signify the acceptance of the building by the city.

Mary A. George was granted permission to use a portion of Center street in front of lot 151 Smith, Bailey & Stone's addition for storing building material, while erecting a house.

Street Committee
The street commissioner was instructed to build box culverts on South Jackson street where it has been macadamized. Assistant Street Commissioner Ross reported the Nole and Lovejoy culverts in the First ward in bad shape and the street commissioner was instructed to repair them under the supervision of the aldermen of the ward.

The city engineer was instructed to prepare plans for a sewer district in the First ward. Just how extensive this district will be cannot be ascertained until the survey is taken.

Must Repair Streets
The street commissioner was instructed to notify the Jansville Street Railway company to put the streets that they have torn up while repairing their track back in as good condition as it was before they began work.

The street commissioner was also instructed to notify the Chicago and Northwestern railroad to repair their box drain from the intersection of West Milwaukee and Center streets, which carries the water under the tracks to a point between their right of way and that of the Chicago, Milwaukee & St. Paul road. The surface water from the tracks runs into the street at this point instead of being carried off by the drain. If the company refuses to make the repairs the city attorney was instructed to take legal steps to compel them to do it.

Brick crosswalks were ordered built across Center street at South Jackson, School and Holmes street. The council then adjourned.

STEAMERS COLLIDE OFF BOSTON HARBOR

Damages to the Cumberland Foot Up \$100,000, While the Farragut Loses Little.

Boston, Mass., July 8.—In a thick fog the Eastern Steamboat Company's steamship Cumberland and the United Fruit Company's steamship Admiral Farragut were in collision in the harbor.

The Cumberland, in a sinking condition, put back to her dock and landed the passengers with whom she had started for Maine ports only half an hour before. The Admiral Farragut of the West India trade, with bent stem and damaged forward works, steamed slowly up to her berth.

The loss to the Eastern Steamship Company, including repairs, loss of revenue and other expenses, will approach \$100,000. The Farragut will require a few thousand dollars for repairs.

BELGIANS CHEER BABY HEIR

Baptism of Prince Leopold Made Occasion of Rejoicing.

London, July 8.—The baptism of his royal highness, Prince Leopold, the 8-months-old heir to the throne of Belgium, has raised great enthusiasm in the Lowlands and a great reception was given him in the streets of Brussels. The populace was not content to cheer the royal carriage containing the royal couple and the little heir on his way to and from the church, but after the prince and princess had returned to the palace surrounded the building and would not disperse until the princess appeared on one of the balconies with little Leopold in her arms and her husband by her side. The Belgians are especially glad to welcome King Leopold's grandnephew as their future sovereign for the question of succession to the throne has been a vexed one for a long time.

INDIANA MAN IS SHOT TO DEATH

Restaurant Keeper Fires a Bullet to Protect His Friend.

Raton, N. M., July 8.—Harry Ball of LaPorte, Ind., was shot here and instantly killed. Ball's murderer is still at large, having fled to the mountains to escape lynching. A quarrel occurred in a restaurant kept by Walte and the combatants went out, Walte following them, as he had a friend in the crowd. A fight ensued and Walte, thinking his friend was getting the worst of it, drew a revolver and fired at Ball, who walked fifty yards and fell dead.

Attempt at Suicide.

Mount Sterling, Ky., July 8.—J. W. Fassett, one of the most prominent farmers in Flat Creek district, attempted suicide because he thought he was growing old and his children needed his money. He took three grains of morphine, then he went to his orchard, placed a knife over his heart, and with a hammer drove it into his breast to the hilt.

THRILLING STORY OF AN IOWA FLOOD TOLD BY FORMER RESIDENTS

Mrs. Grace Hayner and Daughter Ruth, Have Interesting Experiences in Waterloo.

Mrs. Grace Hayner, widow of the late Brigham Hayner, and her little daughter Ruth, former residents of this city had a thrilling experience in the recent flood at Waterloo, Ia., their present home where they reside with Mrs. Hayner's mother, Mrs. Hubbs, and her brother George. Their many friends in this city will be interested in reading the account of it as given in a personal letter from Mrs. Hayner to her father-in-law, John G. Hayner, of this city. The letter follows:

"Waterloo, Ia., July 4, 1902. Dear Folks:—Ruth wrote you a few lines about our flood but I will go into details a little more. I tried to get you a paper this morning but the press began to get under water before they had the full number struck off so they had to wait but they will have some more copies tomorrow and then I will send you one. I sent ours to Alice and then went down to get one for you and found they were all out.

"It was quite an experience and one that we will not soon forget though we did not lose by it as others did but we came so near it that it will always seem like a horrible nightmare. It had rained by spells very hard all the afternoon and evening and we went to bed with considerable lightning and thunder and rain playing around.

"About one o'clock they gave the 'Dry Run' alarm and we knew that there was something serious the matter, though mother and I had just gotten up to see what was the meaning of the voices we heard near the house. We knew then that the water was high but didn't realize that it was going to mean so much to us.

"I came down stairs to waken George and when I opened the stair door, there was a sound as if the water was rushing into the house in a perfect torrent. I called him and then investigated and found that the cellar was half full of water. I went up stairs, dressed and helped Ruth dress and by the time that I was down stairs again the water was within a foot of the floor of the dining room. When we got out onto the porch we saw that our sidewalk was gone, some of it right up by the house, some of it on end, and some of it floated entirely away, and the water up to the first step on the porch.

"We decided to see if the water raised any more and if it did, to commence taking up our carpets at once, but it commenced to go down the least bit and while it went down very little that night, still we felt that probably the worst was over, though most of the time it rained, and some of the time, very hard, and the lightning and thunder was almost continuous.

"There were boats going all over the streets. They were right up to the house several times and it looked like a river was all around us. Ruth and I staid up all the rest of the night. We thought that we could sleep the next day, but we couldn't watch things. It was a weird sight watching the daylight come, with the roaring water all about the house, the boats in the streets with their lanterns, the debris floating down the street, etc.

"About five, the Smiths, and Aunt Borel and Ruth and I put on our 'walking' skirts, and other old clothes, and took our umbrellas and started on a tour of investigation. The trouble to our part of the town all originated right up by the High school. You remember that there is a bridge over the Dry Run there. Well, when the heavy rain brought the water from 'up country,' as they call it, in such volume, it brought some buildings with it, and small boards, etc. and the building lodged right there and threw the water back and it came down here. They got the building out (it was a small work shop), but the heavy boards that floated down the stream, boxes, etc., kept filling the stream all the time.

"The small bridges of the town all went out with the exception of one. Right on the corner above us a man had just built a cement walk around his two lots and that walk went out. Side walks are lying all over the streets. You will get quite an account of the worst of it in the paper. Our cellar still has some water in it, but it will be almost dry by tomorrow and we expect to clean it then. The Bickley's were in dreadful shape. Their house is on low ground and they didn't hear the first alarm and by the time that they awoke the water was all over their first floor and staid over their shoe tops until noon yesterday. Their house is a slight and there are a good many more, the same.

"Parts of the town where there usually isn't anything but pasture land were filled with a rushing body of water that was something terrible. We took some pictures of the worst places and if they are good will send you some. I never saw anything like it before and hope I never will again. Mother stood it very well.

"The terrible odor that came with the water that night was one of the hardest parts of it all as it made us so deathly sick but that has gone now. The sun and wind have helped so much in drying it up and if it only doesn't rain heavily right off, we shall be all right. I don't think we should suffer again as they will watch things very closely in this part of the town, but of course, if the levee gave way, there is no telling what might happen. The water has gone down a great deal since yesterday, but the dam looks dreadful yet. One farmer had eleven cows carried down the stream but he found most of them during the day. A dead horse harnessed to a carriage came down the river during the day and all sorts of less valuable things."

Strange features of the lines of Prof. Austin O'Malley, of Notre Dame whose wife was recently arrested, have been disclosed by his physician.

WE KEEP THE QUALITY UP.

JUST PLAIN, COMMON SENSE.

There may not be much literary ability displayed in our advertising. We do not believe in turning verbal "handsprings" or summersaults to attract the attention of our buying public. But we do believe in using common sense in our announcements. There is a vein of common sense in most folks; to reach that vein is what this store is after, and we try to reach it by talking clean, straight-from-the-shoulder facts concerning our methods; merchandise and prices. Sometimes we hit, sometimes we miss, but we aim to hit every time. When we miss the loss is as much yours as ours. Do these values hit?

A Great Cut in Waists...

The time has come to reduce the stock of SHIRT WAISTS. To accomplish it we quote PRICES below that smack of BARGAINS pure and simple. The word BARGAINS is used here in its TRUE SENSE. The SHIRT WAISTS that we offer at such remarkably low figures are beautiful colored waists. THE KNICKER-BOCKER WAISTS, which for style, fit, and workmanship, stand at the head. First to come get the best pick. Read our prices, consider the quality of the waists, their general excellency, then buy liberally, you'll not regret it.

The News From County Towns.

MILTON.

Milton July 7.—The Fourth of July at Milton was an unqualified success. The day was an ideal one and three thousand people were present to enjoy it. The parade included floats representing the firms of Dunn, Boss & Co., and W. B. Maxson, E. D. Bliss who had a piano on his float and his daughter played it during the parade, the Good Templars and the Post-office. The Milton Junction band furnished good music generously throughout the day. The exhibition by the Fire Department attracted much attention and they were highly commended by all for the rapidity of their work. The address by Mr. Matheson, was excellent in thought and appropriate to the occasion and he declined to accept anything for his services, an act of generosity that the fire fighters appreciated highly. Others who appeared on the program did well. The ball game between the Crescents and the Y. M. C. A. of Janesville was witnessed by two thousand people and a good exhibition of national sport was given, although there was little stick work to enthrall the crowd, owing to the fact that most of the work fell to the batteries and infields, high grass preventing ground balls from being speedy. Both pitchers did good work and only two men got bases on balls. Our villagers felt pleased over the fact that the runs were all scored by "Our boys," namely, Risdon, Whitford and Vanderwalker. The fire department ran three refreshment stands; and from these a profit of over \$100 was realized for the treasury of the department. The tug of war between Harmony and Milton was won by the giants from our sister town but they had to call on their reserve muscle to win. There seemed to be but one opinion among the visitors as to the success of the celebration and that was complimentary. The following are the winners in the athletic events: One mile bicycle race; L. E. Bliss. Half-mile run; Lyle Plumb. Hammer throw; L. A. Platts, Jr. 50 yard dash for girls; Margaret Cunningham. 100 yard dash for boys; Herman Lipke. 100 yard dash for men; J. F. Whitford. Shot put; Howard Plumb. Sack race; Joe Thrasher. Ladder climbing; Frank Risdon. Michael Masterson spent the Fourth with relatives here. His niece, Miss Katherine C. McBride, returned to Chicago with him Friday evening. L. T. Thomas and wife of St. Paul have been visiting W. D. Thomas and family. Mr. Thomas returned to that city Monday, Mrs. Thomas remaining here for a time. Riley P. Brown, a linotype machinist of Chicago, is visiting, Milton friends. Mrs. S. S. Thomas is visiting Chicago relatives. The Milton creamery made nearly eighteen thousand pounds of butter last month. Prof. Albert Whitford and Prof. A. E. Whitford returned from Kansas Friday. Mrs. Crandall will not come until the last of this week. Robert B. Mundell, Assistant Supt. Registering System of the postoffice department visited the Milton office officially Saturday. Mrs. Clem W. Crumb and son, who have been spending several months at Oakland, Cal., returned last week. Prof. L. Kummel came up from Chicago Thursday for a few days rest from the X-ray treatment. He is improving and he thinks his prospects for recovery encouraging. Mrs. Mate Haven Irish returned to Farina, Ill., Monday, via Walworth and Janesville. Over an inch of rain fell here Sunday night. Sheriff Maltress was in the village Sunday. P. B. Harley lost his watch Friday, while making a run with the fire department and found it Sunday in the grass in the park. E. O. Crandall who has been quite ill is able to be out again. Mrs. Ambrosia Clarke is visiting in Walworth. Mrs. Frank Fox has been called to Dodge Center, Minn., by the illness of her father. Miss Dollie Cole, of Boyden, Iowa, is visiting at H. H. Risdon's. B. F. Johnson is a victim of typhoid fever, but seems to be doing as well as can be expected. The College quartet composed of Prof. A. E. Whitford, E. D. Van Horn, L. A. Platts, Jr., and E. B. Loofboro, sent out in the interest of the institution begin their labors at Welton, Iowa, this week then visit Marion, Garwin and Denison, Iowa, Nortonville, Kansas, Farina and West Hallowell, Ia. They expect to be absent about four weeks. Rev. M. B. Kelley, left Monday for Gentry, Ark., where he will engage in evangelistic work with the Milton quartet. Next Monday the Milton ball team will play the Lake Mills nine here. This will be a lively game as Lake Mills has a strong team. The names of the Milton players will appear in Saturday's issue. "Awnet Deal" Estee and D. Y. Berkley took the train Monday for Alfred, N. Y., where they will visit relatives and friends.

CLINTON.

Clinton, July 7.—At seven o'clock the spirit of Leon Smith took its flight from this earthly tabernacle, returning to the Maker that gave it. Mr. Smith fell a distance of thirty feet from the roof of a barn he was shingling nearly two months ago and his recovery was doubtful from the first, but friends gathered hope as time went on, until about a week previous to his death when his symptoms grew less favorable. Consequently his death was not unexpected. Mr. Smith was born in Clinton in 1865 and has always resided here. He was a young man of exemplary character. In 1890 he was united in marriage to Miss Della Babcock, eldest daughter

of our townsman, E. P. Babcock who survives him. He also leaves a little daughter four months old, who will never know a father's care and love. The funeral will be held on Tuesday afternoon at 2 o'clock from the house. The wife and father and brothers of the deceased have the deepest sympathy of the community in this their sad affliction.

An exceedingly hard down-pour of rain came Sunday evening before midnight. Several inches of water are said to have fallen and will not in all probability help the condition of the grain already lodged.

A small pine organ has been placed in the Congregational church by James Murray, of Beloit and which, if it proves satisfactory will be donated to the church by individual members of the society.

Among the young people that graduated from outside schools are Ethel Pangborn and Emily from Beloit; Miss Ina Ames, Whitewater; and Dan Woodard, Ann Arbor, Michigan.

The friends of Mr. A. J. Boynton will be pleased to know that he has just received the degree of A. M., from Columbia university, N. Y., and also Ph. D. from Harvard college. The Fourth of July passed off very quietly. Not even the church bells were rung the night previous. There was quite a display of fireworks during the evening by private individuals and family parties.

Miss Dora Hurlburt of Elkhorn has been visiting relatives recently.

On Tuesday Miss Emily Moore left for Madeline Island where she will spend the summer.

The R. N. A. gave a dance in E. R. Serl's barn July 4th.

F. H. Wilkins has begun work on his new barn. Charles Hackwell came near losing a valuable horse last week, but the timely aid of Drs. Flaherty and Brown saved the animal.

The class in Bible study were delightfully entertained by Miss Mary Hackwell at her home last Saturday afternoon. After a careful review of the quarter's work the members were ushered to the dining room where a tempting supper was served. The class will continue its meetings on Saturday afternoons at the usual place. The next lesson will be Exodus 16. All interested in this work are earnestly invited to begin this quarter's study of the old testament.

After an illness of many months Mrs. Hanson passed to her eternal rest on Monday June 30. The deceased was born in Norway in 1824 and came to this country in 1870. Her husband died in 1880 and she lived with her son, Theodore, whose sad death occurred a year ago. She leaves a daughter and four grandchildren to mourn her departure, and who will sadly miss her from the home. The funeral services were conducted by Rev. J. Herbert at the Emerald Grove church Wednesday afternoon.

CLARENCE MICA LOSES HIS BRIDE

ELOPING COUPLE SEPARATED

Young Wife Brought Home by Her Father, While Mica Remains in Milwaukee.

Miss Hazel Woodstock, now Mrs. Clarence Mica, was brought home last evening by her father, Henry Woodstock and Chief of Police John W. Hogan. Her youthful husband was not allowed to return with her but remained in Milwaukee with his sister at whose home it had been planned that the young couple should make their home for the present.

The eloping pair were married at Grand Haven Sunday afternoon at 1 o'clock and early Sunday evening they were taken in charge by the marshal of Grand Haven and brought back to Milwaukee on the Crosby line steamer Nyack. The marshal had been notified Sunday morning to look out for the eloping pair and had it not been for the fact that the telegraph wires were down they would have been apprehended before noon and the wedding would have been prevented.

Taken To Police Station

While no warrants were issued, Mr. and Mrs. Mica accompanied the Michigan officer to Milwaukee and on their arrival in that city yesterday morning they were taken in charge by Detective McManus of Milwaukee, Chief Hogan and Mr. Woodstock. Mica was released and warned to remain in Milwaukee and his young bride was taken to the Central police station and detained there in the matron's room until time for the Janesville train, her father remaining with her. She wanted her husband to return to Janesville with her but was told that she must come back to her mother and that it would be some time before she would see Mica again.

Girl Not a Thief

The report that the young lady was arrested on the charge of stealing \$150 from her mother is absolutely untrue and without foundation. When Miss Woodstock left home on Saturday morning she took with her a large sum of money and all her clothing, but everything taken by her belonged to her personally. She stole nothing from her mother and the only motive her parents had in pursuing her was the desire to prevent their daughter's marriage, her extreme youth and their disapproval of her lover being the reasons for this desire.

IN THE VALLEY OF THE SHADOW

Mrs. Catherine Smith. After an illness of a month's duration, death came to Mrs. Catherine Smith at her home, 4 Caroline street, last evening at 11:30 o'clock. Deceased was seventy-two years of age and many years of her useful life had been spent in this city. She leaves a wide circle of friends, two sons, Frank and John Smith, and two daughters, Misses Mary and Rose Smith.

Jay Ayers, a resident of Rock county for the past forty years, died at his home, 4 Elizabeth street, last evening at 8 o'clock, death resulting from a complication of diseases. Deceased was sixty-four years of age and held the high esteem of all who knew him. He leaves a wife, one son, Frank Ayers, who resides in Kansas and four daughters, Mrs. Charles Corsart, of Kansas; Mrs. Edgbert Chase of Broadhead; Mrs. Elias Whitmore, of Prairie du Sac and Mrs. Joseph Warren of Beloit.

Carl Schuenke. Master Carl Schuenke, only son of Theodore Schuenke, died yesterday morning of stomach trouble at the home of his father, 25 Armour street. The little fellow was eleven years of age and had been ill since last March. His death is a sad bereavement to the father and to three sisters, Ellen, Zelma and Laura Schuenke.

Funeral services will be held tomorrow afternoon from the home at 1:30 o'clock and from St. Paul's German Lutheran church at 2 o'clock.

A Much Tattooed Man.

Tattooed on the body of a man who lost his life in the South West Indies docks were a crucifix, elephant, tombstone, dog, eagle, figures of Punch and Judy, cross flags and the word "love" in large letters.

High Priced Art.

A few weeks ago at Christie's in London, a small bronze figure of a cupid with a bow upraised about to discharge an arrow, was sold for \$7,250. The figure is the work of an artist of the sixteenth century, and is about twelve inches high. The price paid is about equal to its weight in gold.

One Editor's Opinion.

The Wiregrass Blade man sums up the situation as follows: "The editor works to keep from, while the doctor works to keep off, the gout. The editor helps men to live better and the doctor assists them to die easy. The doctor pulls a sick man's leg, the editor is glad if he can collect his bill at all. Revenue only? We are living for fun and to spite the doctor."—Atlanta Constitution.

Christians Were Scarce.

Rev. Dr. Evans, an Episcopal clergyman in Middletown, N. Y., when he began his rectorship there some years ago was told by a discouraged Presbyterian divine that he did not believe there were 300 Christians in all Middletown. "Not so many; not so many," said Dr. Evans. "I've got in my church all there are, and they do not number three hundred yet."

WANT BETTER LAWS.

First District Miners Seek to Improve Conditions.

Wilkesbarre, Pa., July 8.—The United Mine Workers of the First district at their annual convention at Nanticoke appointed a legislative committee which is to recommend some means of obtaining better laws to aid the miners in winning improved conditions and may also suggest that union men vote only for those who are pledged to labor in the legislature in their behalf.

Sheriff Jacobs had to be called upon to aid in the arrest of Mrs. Anthony Molesecki, who is accused of being in a crowd which assaulted N. L. Harris of the William A. breaker at Duryea.

Howell Pugh, a striker at Plymouth, was arrested for assaulting Fire Boss John Hammond of the Lehigh and Wilkesbarre coal company, and held under \$1,000 bail.

The strikers throughout the region are jubilant over the prospects of peace, having conceived the idea that Mitchell's visit to New York is part of a plan to effect a settlement.

Receive Credentials.

Indianapolis, Ind., July 8.—The committee on credentials of the United Mine Workers will meet at the headquarters in this city on Thursday to begin the work of examining the credentials of delegates who will attend the convention, which opens on July 17. Already about 400 credentials from delegates have been received at the national headquarters, and every mail brings in from twenty-five to fifty.

CON. M'GINLEY'S LIFE DASHED OUT

CAUGHT IN RUNNINGSHAFTING

Horrible Accident Occurs at the Plant of the Janesville Machine Company This Morning.

Carelessness resulting from long familiarity with danger claimed another victim in the death of Cornelius McGinley, an officer with the Janesville Machine company. He had entered a dark tunnel to oil the bearings of a shaft while the machinery was in movement. His clothing was evidently caught about the revolving shaft and he was killed instantaneously as his body was beaten against the stone walls of the shaft.

"Con" McGinley had been employed by the Janesville Machine Co. for over ten years and for at least nine years he had been employed as an oiler. One of the places which it is his duty to enter while making his rounds was a stone tunnel with an opening of about three and a half feet, through which the shafting is led from the engine room to the new building at the north end of the works. He had often been cautioned not to enter the tunnel while the machinery was in motion, but to do the work at noon when the engine was stopped, but familiarity with the work had bred contempt in his mind for the dangers that attend work near the revolving shaft which maintains a speed of from two hundred to two hundred and twenty-five revolutions a minute.

Goes Into The Tunnel

Just before he entered the tunnel this morning at about a little before eleven o'clock he asked one of the workmen who was standing near for a match that he might be able to see his way into the darkness. A couple of minutes after he had entered the opening, Fred Smith, the foreman of the machine shop, noticed from the sound that something was wrong with the shafting and attributing it to a loose pulley or coupling he gave orders to stop the machinery.

Body Found

Charles Fish was sent into the opening and after crawling along some distance he encountered the body of McGinley wound around the shaft. As Fish was going in some one remembered that McGinley had just asked for a match before entering to oil the bearings and the word was given that he was caught in the tunnel.

Floor Pried Up

Immediately the order was given to pry up the plants which cover the tunnel in the alley between the two buildings. As the tunnel was opened the face of Fish appeared. A lantern was found and the horribly mangled remains of the body were found, the limbs almost separated from the trunk. The patrol was summoned and the body was taken to Ryan's undertaking establishment.

Torn To Pieces

The explanation that is given of the accident, is that McGinley's coat was caught on the shaft, there being no pulleys or other projections in the tunnel, and was tightly wrapped about it. At the speed that it was moving the man's body must have been dashed against the stone walls with such force as to deprive him of life instantaneously. The soles of his shoes and parts of his clothing had been torn off and were scattered on the floor of the tunnel together with his oiling can. One arm was doubled about the shaft.

Cornelius McGinley was thirty-eight years of age and was spoken of as one of the most popular men in the machine works. His immediate relatives who survive him are his mother Bridget McGinley, with whom he lived at 101 Williams street; three brothers, William, Dennis and John and a sister Mary E., living in Janesville; and another sister, who is in the convent of St. James' Academy, Sister Mary Bridgetta.

FREIGHT RATE DISCRIMINATION

Shippers Meet at Springfield to Prepare Their Requests.

Springfield, Ill., July 8.—A number of shippers of this state met here to formulate requests preparatory to the hearing to be held to-day by the railroad and warehouse commission in the matter of the revision of freight rates. Shippers desire reclassification of some kinds and also charge that there is discrimination in freight rates against Illinois cities in that freight is shipped to points in Illinois from Iowa and Indiana at a rate far less than the same article can be shipped from one point to another for an equal or less distance in Illinois.

More Pay for Steel Workers.

Pittsburg, July 8.—The Pittsburg steel foundry company, with works at glassport, has acceded to the demands of the workmen and increased the wages of the machinists, cranemen and laborers an average of 10 per cent to date from July 1.

Trainmen Make Demands.

Winnipeg, Man., July 8.—Canadian Northern trainmen, including conductors, presented a schedule yesterday and demanded recognition inside of thirty-six hours.

FELL FROM A TRAIN.

Stranger Picked Up Last Night Near Tracks Injured.

A man giving his name as Leary and his home as Rockford, was picked up last night about two o'clock along the St. Paul tracks near the South Y between here and Milton. He was supposed to be badly hurt but it was found on his arrival in this city that he was able to proceed on his way. He had several cuts and bruises on his head which Dr. Joe Whiting dressed. He claimed he fell off from a train ahead of No. 51 that picked him up.

RAINS HAVE DONE MUCH DAMAGE

RAILWAYS SUFFER WASHOUTS

The St. Paul Road Has Several Bad Places Along Its Line.

Monday night was full of trouble for the railroad companies as the result of the heavy rains of Sunday night. The Chicago, Milwaukee & St. Paul road in particular had three washouts near here which seriously endangered any fast time and made it necessary to reduce speed so the entire time table was thrown out.

At Boynton's Cut

One of the first washouts reported was at Boynton's Cut where the gravel was washed out to a depth of six feet and the water was high. For a mile east of Mineral Point the whole track was so soft that it was necessary to slow down the speed of all trains and several considerable delays were caused.

Nearly An Accident

Four miles west of Bardwell near the bridge was the only washout that caused an accident. Here the wet embankment allowed the track to sag and the rails to spread. As a freight train of thirteen cars was passing over this section of the track at about 9 o'clock on Monday night at a speed of forty-five miles an hour, the sprung rails, caused the car to leave the track.

Swings Across Track

The car swung almost squarely across the track and it was only saved from leaving the bridge by the guard rails. Another engine was sent out to pull the train in. The result of this accident in blocking up the road was so great that the 8:55 train did not leave Janesville until after 9:30.

Band Concert: The third concert of the open air series by the Imperial band will be given in the Court House park at 8 o'clock this evening.

Kodol Dyspepsia Cure

Digests what you Eat

Many digestive compounds and tablets are recommended to cure dyspepsia by digesting food with the pepsin they contain. Most of these possess merit, but they all fail in many cases, because pepsin digests only albuminous foods, such as eggs and meat. But we must eat more than eggs and meat; and some of the worst cases of dyspepsia are caused by indigestion of fats and starches and other foods which pepsin cannot digest.

There is one preparation that contains all the digestants. It is KODOL DYSPEPSIA CURE, which digests what you eat, and has been used with remarkable success,—not a single failure to cure being reported from the many thousands who have used it.

J. E. Peabody, Pittsford, N. Y., says: "The first dose of Kodol Dyspepsia Cure relieved my son of stomach and heart trouble, and four bottles of it cured him. I heartily recommend it."

It can't help but do you good

Prepared by E. C. DeWitt & Co., Chicago. The \$1. bottle contains 2½ times the 50c. size. When you suffer from biliousness or constipation, use the famous little liver pills known as DeWitt's Little EARLY RISERS. They never gripe.

Above Preparations are sold by M'CUE & BUSS.

LATE TELEGRAPHIC NEWS

GOV. YATES WILL PROTECT NEGROES

Advises President Alston of Eldorado Institute to Return.

CENSURES SHERIFF, BAXTER

Executive Notifies Saline County Official His Demands Must Be Compelled With, and He Will Invite Refugees Personally to Go Back.

Springfield, Ill., July 8.—Gov. Yates is taking an active interest in the race troubles at Eldorado, in Saline county, and after twice reprimanding Sheriff Baxter has written to President Alston of the Industrial Institute advising him to return there and promising him full and ample protection from violence.

The governor intimates pointedly that he is not satisfied with the excuses offered by the Saline county sheriff and informed him by letter that the assistant adjutant general tells quite another story.

There has been considerable correspondence over the troubles at Eldorado, the governor paying particular attention to the case yesterday.

He received one letter from President Alston of the Industrial Institute at Eldorado confirming the reports of violence against the colored people of Eldorado.

Alston writes from Metropolis, Ill., and states that there have been acts of violence against the colored people of Eldorado for the last four or five months. He says that, owing to mob violence, the contemplated sale of the property on May 20 was prevented, and that he and his wife are now in Metropolis, where the colored population is strong, because they felt their lives were in danger as long as they remained in Eldorado.

He also states that it is the intention of the trustees of the school to establish a school elsewhere.

Promises Protection.

Gov. Yates replied as follows: "You say that you are now at Metropolis, because your wife desires to get away from a place that would endanger her or your life, and in which you further state that you owe \$500 upon Eldorado property, which could have been paid if you had been allowed to close the schools; and at the close of which you state that the trustees have agreed to re-establish a school elsewhere, and inquire if I have any suggestions to make."

"In reply I will say that I suggest that you return to Eldorado and open your school at the proper time, exactly as if no disturbance had occurred, with assurance from me that I will furnish you by telegraph all such force as may be necessary to protect you and all inmates of the school from any disturbance whatever."

"I note your statement that inmates of your school lived in this state, being for the most part old residents, and that they were not students from Kentucky."

"RICHARD YATES," Baxter Explains.

The second letter the governor received from Sam Baxter of Harrisburg, sheriff of Saline county, in answer to Yates' recent letter in which he reprimanded the sheriff for failure to protect negroes connected with the school at Eldorado brought forth some severe comment.

Baxter alleges that he did not advise negroes to leave and that he did all in his power to protect them, and also that he had enlisted the aid of the United States deputy marshal. He does not say, however, that he is endeavoring to bring back the negroes who have been driven away with assurances of protection.

Gov. Yates replied in part as follows:

"I sincerely hope that the statements are correct and that the report of the assistant adjutant general was erroneous, but, to put it mildly, there are several things which indicate that you have certainly failed short of your full duty in this matter."

"My demand upon you in this particular was explicit and I shall not make it again, but proceed to communicate with those parties myself as rapidly as I can locate them."

"RICHARD YATES."

TO UNITE WINDOW GLASS MEN

Plan on Foot to Consolidate the Various Companies.

Muncie, Ind., July 8.—The meeting of all window-glass manufacturers to be held in Cleveland, Ohio, July 10 is believed to be in furtherance of the plan projected by James Chambers, president of the American company, to form a quadruple alliance, consisting of the American, Federation and Independent with all outside companies, the latter to be formed into a separate association or added to one of the other organizations.

Soldier Kills Himself.

Manila, July 8.—Captain John H. Shollenberger of the Tenth Infantry committed suicide by shooting him-

self on July 4 at Migan, in the Island of Mindanao. His act was due to despondency.

Predicts Revolution.
Paris, July 8.—An astrologer named Noho claims that France is going to have another revolution, which will begin to ferment in 1903, become violent in 1905, and terminate in 1907.

FREIGHT HANDLERS ON STRIKE

Between 8,000 and 9,000 Men Quit Work at Chicago.

Chicago, July 8.—The Freight Handlers' union of Chicago declared a strike yesterday, and in response between 8,000 and 9,000 men quit their work. The twenty-four railroad companies which employed these men in their freighthouses had volunteered to meet severely with their own men and discuss wages, but the men held to their demand that their union officers should do the dickering with the companies.

The immediate result of the strike was a partial paralysis in the movement of freight which is likely to be felt throughout the city in a scarcity of commodities and food products. The railroads are already shipping in men from the country to take the place of the strikers.

Three railroads—Illinois Central, Northwestern and Pennsylvania—announced there would be no suspension of the handling of freight at their depots. Others made no such strong promises, but the Alton, for example, brought a trainload of men into the city.

ROCKS BOAT TO SCARE A BOY

Craft Capsizes and Expert Swimmer Pays Penalty With His Life.

Peoria, Ill., July 8.—Frank Cannon and Frank Case, aged 15 years, were drowned in the river below this city. Case, who was an expert swimmer, disrobed and began rocking the boat to frighten Cannon, who could not swim. Cannon begged piteously for Case to desist and the more he begged the harder Case rocked the boat. Finally it capsized. Cannon sprang for Case and locked his arms around Case's neck just as they reached the water. Both boys sank and were drowned. Three hours later Cannon's arms were still locked about Case's neck.

COMMISSIONER HAHN IN JAIL

Former Head of Ohio Insurance Department Refuses to Give Bail.

Mansfield, Ohio, July 8.—Former Insurance Commissioner William H. Hahn waived examination at a hearing before Mayor Robinson on proceedings being brought by Prosecuting Attorney Bowers to prevent his being taken to New York to answer a charge of larceny and was bound over to common pleas. He refused to give \$7,000 bail and was taken to the county jail to await the grand jury next September.

Shot by Jealous Man.

Watertown, Wis., July 8.—Because Mrs. J. Schwartz, a widow residing in this city, refused to marry P. H. Fender he shot her twice and took poison himself. Doctors were immediately summoned and both will live.

Test Bullet-Proof Shield.

Rome, July 8.—The bullet-proof shield invented by Sig. Benedetti was successfully tested at Villa d'Orta in the presence of the war minister; Maj. John P. Porter, U. S. A.; Judge James P. Smith, and Capt. Lewis H. Strother.

Two Drown at Calumet.

Calumet, Mich., July 8.—Thomas Arkansas while in swimming was seized with cramps and drowned. Thomas Habanity was drowned in saving the life of John Kason, who was bathing in the Tamarack mine.

Thirty Million Corporation.

Dover, Del., July 8.—The Lowe Coke and Gas Security company of New York City, to manufacture coke and coal gas, capital stock, \$30,000,000, was granted a certificate of incorporation.

Railroad Wreck in Germany.

Berlin, July 8.—In a collision at Rostock, Mecklenburg-Schwerin, between an express and an excursion train, one person was killed outright, while eleven are not expected to recover.

Aguinaldo Is Free.

Manila, July 8.—Aguinaldo, now a free man, is dreading assassination by Luna's friends, who are very bitter. He is making preparations to go to the United States.

Jail Breaker Captured.

Washington, Ind., July 8.—Eddie Lyons, who escaped from jail with "Bill" Edson and Joseph Herbert, was captured in a corn field near Princeton.

Explosion Wrecks Mill.

Providence, R. I., July 8.—The Eagle mill at Woonsocket was wrecked by a boiler explosion. John Briggs, a fireman, was fatally injured.

Miss Astor Arrives.

New York, July 8.—A daughter was born to Col. John Jacob Astor. Mrs. Astor is residing in the white marble mansion of the Astors at Sixty-fifth street and Fifth avenue.

Baron Buol Is Dead.

Berlin, July 8.—Baron Buol, former president of the Imperial Diet, is dead.

ANARCHY LIKELY TO BE CUBA'S LOT

General Fitzhugh Lee Says Relief Must Be Afforded the Islanders.

NEGROES SHOW DISCONTENT

Maceo and His Followers Have Been Entirely Ignored by the New Government and Their Unrest May Cause Disturbances.

Washington, July 8.—Gen. Fitzhugh Lee, consul general at Havana before the Spanish war, who was in Washington, made this statement: "I can see nothing ahead in Cuba but anarchy unless some relief is afforded by the United States in the matter of the sale of Cuban products here. Should anarchy follow, the interference of the United States and the holding of the flag of America would be the only result."

"American merchants will not risk sending their goods to Cuba at present, with trouble threatening to break out in the island at any moment and the possibility of the merchandise being seized."

Discontent Prevails.

"There is already a murmur of discontent among the negroes who rendered service in the war for Cuban independence. Maceo, who was himself a negro, was an important factor in this war, and so far as I can see he and his followers have been entirely ignored by the new Cuban government."

"All the revenues of the island come from customs, there being no direct taxation. During the occupancy by American forces these receipts were very large, but now that Cuba is obliged to shift for herself, very few goods are imported and the customs derived have dropped materially."

"A reasonable reciprocity with the United States, such as President Roosevelt has urged, is the only thing that can bring Cuba immediate relief. Unless this is granted annexation is sure to come."

WEDDING BELLS END A SUIT

Farmer Gets License to Marry Complainant, Who Asked \$10,000.

Springfield, Ill., July 8.—Benjamin F. McAtee, a farmer near Glenarm, disposed of a damage suit pending against him when he came to Springfield and secured a license to marry Nellie M. Clayton. About two months ago McAtee was made the defendant in a \$10,000 breach of promise suit filed by Miss Clayton. McAtee is 51 years old and a grandfather. Miss Clayton is 31 years old. In her suit she charged that McAtee first promised to marry her in 1891, and after waiting for him ten years and refusing several other offers of marriage she decided to bring suit.

Farming Acreage Increased.

Washington, July 8.—Statistics of the farm property of Mississippi in a report issued by the Census Bureau show at the last census a total of 220,803 farms, worth \$204,221,027, their product amounting to \$102,492,233. The average size was 82.6 acres. The total acreage increased in the last ten years 3.8 per cent and the total valuation of farm property 22 per cent.

Cough, Cough,

Night and day, until the strength is entirely exhausted, and that dreaded word "Consumption" begins to be whispered among friends. That's a common story, familiar to the people of every town and village.

There's another story which ought to be as widely known as the story of disease, and that is the story of the cures effected by the use of Dr. Pierce's Golden Medical Discovery. Bronchitis, asthma, obstinate, deep-seated coughs, bleeding of the lungs, and other forms of disease which affect the respiratory organs, are permanently cured by the use of "Golden Medical Discovery."

"Only for Dr. Pierce's Golden Medical Discovery I think I would be in my grave to-day," writes Mr. Moses Miles, of Hilliard, Ohio, Co., Ohio. "I had asthma so bad I could not sleep at night and was compelled to give up work. It affected my lungs so that I coughed all the time, both night and day. My friends all thought I had consumption. My wife insisted on my trying Dr. Pierce's Golden Medical Discovery—which I did. I have taken four bottles and am now a well man, weighing 185 pounds, thanks to Dr. Pierce's Golden Medical Discovery."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for book in paper covers or 31 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

of a candidate yet. They will take up the subject after the Republican state convention has been held and its candidates have been named.

The following is the text of the letter to Chairman Warden:

"Milwaukee, July 2, 1902.—Hon. A. F. Warden, Chairman Democratic State Central Committee, Milwaukee, Wis.—My Dear Warden: You have requested me to write an open letter on affairs political in Wisconsin. This is my reply:

"Political conditions and probable results are the topics that absorb the public mind. The campaign opened months ago, and has been waged with unabating vigor, although thus far Democracy has been content to stand aside and give the field to the warring factions of the Republican party.

It is safe to predict that LaFollette will be renominated and that his platform will be a repetition of the idiosyncrasies, vagaries and impractical and disturbing theories upon which he was elected in 1900.

"If current reports are true, and there is abundant cause to believe they are, he has already selected and nominated the other candidates of the Republican state ticket, and there remains to be played only the closing farce of holding the convention to ratify what his imperious will has already decreed.

"The men who have followed his fortunes, supported, nominated and elected him and who dared to aspire to places on the state ticket as rewards of merit will be ruthlessly thrown aside to make room for new satellites whose more recent services have supplanted his old and loyal followers. In his transitory affections, he has called around him the non-descripts and coffee-coolers of the old camps who follow his towering pompadour with the consistency with which vassals followed their masters in the feudal days.

"A powerful wing of the Republican party has repudiated him and his destructive and trouble breeding theories. This wing embraces the representatives of the business, economical and manufacturing interests of the state, and now that the tax assessment rolls have been closed, disclosing the startling proof of his inefficiency and instability, there will be added to the opposition the agriculturalists, who will feel most keenly the added burden resulting from his extravagance and mismanagement.

"This opposing faction of his party will withhold their support from him for the same reasons that the Democracy will unite in an unbroken and unyielding phalanx to defeat his election.

"These reasons are of potent significance and they may be summarized as follows:

"Professing opposition to the railway corporations, by his message to the legislature he disclosed his insincerity by advocating policies in absolute conflict with his campaign professions and platform speeches.

"Advocating an equalization of taxes he spun an insane theory which was enacted into law and which resulted in a system of double taxation.

"Promising economy in the administration of state government, he unnecessarily doubled the school taxes. "Under the guise of tax reform he organized the tax assessors of the state into an army of nearly 1,000 political henchmen, placed the assessors of each county under the dominion of a supervisor of assessment, who in turn is dominated by him.

"He multiplied the game wardens of the state and organized them into a division of caucus organizers and primary workers, and paid their salaries and expenses from the people's treasury.

"He debauched the charitable and penal institutions, that of right should be kept free from political contamination, by converting them into headquarters for his personal henchmen.

"He insists upon the enactment of a primary election law for the sole purpose of perpetuating himself in power, knowing full well that with the powerful organization of henchmen and state employees he now has behind him he cannot be dislodged from power except by a greater and stronger organization to accomplish which the ordinary citizen does not possess the financial ability. By this method no one can secure nomination to the office, except to be the favorite of LaFollette.

"While masquerading as the enemy of the old republican regime he entered into a secret conspiracy with Henry C. Payne, the man whom he openly pretended to fight by which Payne withdrew stalwart opposition to LaFollette's nomination for governor in 1900 and LaFollette withdrew opposition to Payne as a candidate for membership upon the Republican national committee.

"By enacting a law for the taxation of mortgages he has placed the burden of taxes not upon capital but upon those who can least afford to bear it, and at the same time has driven surplus capital from the state.

"As a result of this iniquitous law, bankers and lenders of money now require borrowers to pay the tax upon the mortgage. The borrower must pay the tax upon his real estate assessed at its full value and must pay the tax upon the mortgage upon that real estate, and this double tax is what LaFollette calls equality in taxation.

"By constantly appealing to passion and prejudice he has arrayed class against class and kept the state in constant turmoil and confusion, and by threatening to put his visionary and revolutionary theories into execution he has disturbed business tranquility, alarmed investors or capital and unsettled the material interests of the state.

"By pretending a desire to accomplish reforms which he refused to inaugurate when brought to the test, by feigning hostility to corporate interest before which he bowed in submission when brought face to face with the responsibility, by secretly conniving with the old leaders of the party to obtain personal advantage while he abused them with anathemas and abuse, he has proved himself to be a trimmer, a demagogue and a hypocrite.

"By employing the great army of state officials, subordinates and employees as political henchmen to the neglect of their public duties, he has been recreant to his trust, increased

the official salary list and squandered the people's money in payment of their expenses for his own personal benefit.

"These are some of the reasons why the conservative element of the Republican party will inspire the Democracy of the state to fight his further pretensions.

"Let the Democratic convention fearlessly condemn the false heresies and hypocrisy of LaFollette and his piratical compeers, declare in favor of conservative and economical business methods in the administration of state affairs, place upon the ticket only men of tried and approved experience, organize every voting precinct in the state, and the thoughtful, progressive, patriotic people of Wisconsin will unite irrespective of past party affiliations to drive this mongrel gang of rainbow chasers into well-deserved oblivion. Yours very truly,

"DAVID S. ROSE."

TEACHING OBEDIENCE.

To Make Children "Mind" While They Are Little Will Be a Help to Them in After-Life.

There are many mothers who find it exceedingly difficult to command the obedience of their children, and are often tempted to give up trying. But, however great the effort required, it should be made for the good of the child, as a habit of disobedience has far-reaching, evil consequences.

The difficulty may be lessened somewhat if a few simple rules are kept in mind. For one thing, the mother should be careful not to make foolish or unjust demands, or forbid the doing of what is in reality harmless. Likewise, she should never tell a child to do, or not to do, a certain thing, unless she positively means it; this would do away with the change of mind so common with many mothers—the saying: "You cannot," or "You must," and then allowing themselves to be teased into a reluctant "You may," or "You need not." Again, a mother should avoid giving any command which she is not reasonably sure she can enforce, if worse comes to worse, for failure in this regard is sure to lessen the child's respect for her, and perfect obedience is impossible without respect.

Having made the commands as few as is consistent with proper discipline, then the mother must be watchful and see that the command is obeyed, always and promptly.

There is an opinion, more or less common, that a child who is made to mind, is less happy than one who is not, but this is not the case. The child who knows that he must obey, that there is no getting away from it, has something solid to depend on and will not waste his time in useless fretting; while the uncertainty of not knowing whether obedience will be required or not, tends to a restless, discontented, irritable state of mind.

Neither, as some think, is harshness necessary. The command can always be given pleasantly, and may often take the form of a request or a suggestion. Firmness is what is needed, not harshness.

The truest happiness goes hand in hand with law and order. The child is subject to the parent's law, but as he grows older he becomes—or should become—more and more subject to the law of God. If, in childhood, he has been trained to the habit of prompt and cheerful obedience to parental authority, it will be much easier for him, when he passes from that authority, to obey the higher law.—Elizabeth Robbins, in Housekeeper.

WOMEN AT THE FORGE.

Four English Girls Who Can Make the Anvil Ring as Cleverly as Any Male Journeyman.

The United States is the country in which it is supposed that more women are found engaged in masculine occupations than in any other part of the world. In England, however, woman has entered the blacksmith shop. The many wars of Britain have drawn away much of the male population in the rural districts, so that a village smith near Leeds has resorted to female help.

At this particular forge each morning, four daughters of the master smith are to be seen at the anvils following the trade of their father. The fair blacksmiths are engaged during

ENGLISH WOMEN BLACKSMITHS.

the greater part of their working day in making gas hooks—broad bent nails, which are used by plumbers for fixing gas pipes to walls.

The labor in which they are engaged is not of a particularly hard nature. The heavy part of the work is carried out by a machine worked by foot and the finishing touches are put to the hooks with a small hand hammer. The girls are fond of their work and are paid by piecework.

The blacksmith has eight daughters, all of whom he has trained up to assist him in his work, but four are left at the forge now. The other four have

left the business, having succeeded in forging a chain which links each to an establishment of her own.

In the nailmaking districts of Staffordshire and Worcestershire hundreds of women and girls work at the anvil, but in ordinary smith's work the employment of women must be exceedingly rare.

Cold Water for Health.

For relaxed throat muscles and a tendency to sore throat and frequent colds, there is no better remedy than cold water, applied night and morning to the parts. Sponge the chest, too, in cold water every morning in winter if you wish freedom from colds. Dush the water repeatedly upon the throat and chest and rub with a Turkish towel until the flesh is in a glow. Rub the throat and chest with the hands at least ten minutes after you have rubbed with the towel.

Washing Ink from Paper.

Nearly all the acids remove spots of ink from paper, but it is important to use such as least attack its tissue. Spirits of salt, diluted into five or six times the quantity of water, may be applied with success upon the spot and after a minute or two washed off with clear water. A solution of oxalic acid, citric acid or tartaric acid is attended with the least risk and may be applied upon the paper or plates without fear of damage. These acids, taking out writing ink and not touching the printing, can be used for restoring books where the margins have been written upon without attacking the text.

MUSLIN Underwear...

We have to offer you the finest line of high grade muslin underwear at popular prices that we have ever shown.

Corset Covers

with full fronts beautifully trimmed with laces and embroideries, at 50c, 75c, \$1.00, \$1.25 and \$1.50 each.

Ladies' Gowns

Starting in as low as 50c and from that up to \$3.00 each. The very latest things in gowns in the way of trimmings and style. The ones we sell at \$1.00 are far ahead in value and beauty of any we ever saw offered for the money.

Long and Short Skirts

with the new deep flounces, made almost entirely of edges and insertions of laces and embroideries. They are simply

Marvels of Beauty

and the prices are within the reach of all.

If You Want Muslin Underwear

of any kind, come to our store. We are sure you will be convinced that we show the representative line at
